AKRON®

AKRON Composite in polyurethane base with mineral fillers.

Akron is a compound of polyurethane and mineral fillers, which is compacted in mass to achieve a solid finish. This polyurethane matrix is achieved with polyether polyols that guarantee magnificent properties of resistance to hydrolysis.

The surface is treated with a polyurethane-acrylic coating that guarantees total physical-chemical integration with the substrate. This coating provides excellent physical and chemical properties and resistance to UV radiation. It does not produce emissions of volatile organic compounds.

ISO 9001:2015

Antibacterial certificate (ISO 22196:2011)

Evaluation of VOCs emissions of interior products (ISO 16000-6:2006) A+ and evaluation of CMR

Benefits

Reduce the joints installing wall panels maximum 1,20x2,50 m.
With our panels you will be able to achieve ceiling with only one piece.

Get a Box Concept creating a shower area with 2 panels and a shower tray.

You can personalize your bathroom using panels mixing its textures and colours.

Combine panels with your Acquabella shower tray.

Use and maintenance

To enjoy your shower tray for years, please follow this simple tips:

For routine cleaning simply rinse with a mild (non-abrasive) cotton dish cloth with water. NEVER USE PADS (SCOTCH BRITE or NATURAL FIBER) no SOLVENTS , ACID, ALKALI OR ABRASIVE . After using any cleaner it is necessary to rinse abundantly with soap and water in order to remove any traces of cleaning products. Ensure sufficient ventilation of the bathroom.
Avoid contact with lacquer, nail polish remover , organic solvents , alcohols , acids, Alkalis,etc.
If you are going to use hair dyes, rinse the shower tray with water and soap when finished.
To remove any traces of lime that can stay in the panel , use a limescale cleaner (Viakal) lowering 1:3 with water (1 L Viakal by 3 L of water) as follows:
- Apply with a wet cloth over the entire surface.
- Leave on for 15 minutes and after that time rinse thoroughly.
- Place the grid again and rinse the shower tray with water again.
- Not recommended for outdoor use.

INSTRUCTIONS FOR THE SURFACE REPAIR OF AN ACQUABELLA AKRON SHOWER TRAY
It is possible to repair the surface of an AKRON shower tray by Acquabella if for some reason the surface of the tray has deteriorated due to improper use. In these cases, you can request a putty repair kit. The kit consists of two containers, A and B. Procedure for repairing a shower tray:

ADEQUACY ZONE TO REPAIR
1. Clean the surface of the tray very well. It can be applied to this process rubbing alcohol or acetone diluted in water with a soft cloth that does not leave any kind of lint.
2. The surface must be completely clean and dry.
3. Dimension the area to be repaired with masking tape or similar.

APPLICATION
4. Open the containers.
5. Mix the components of containers A and B on a putty knife.
6. Extend the putty on the surface to be repaired.
7. Allow to dry for 30 minutes, at approximately 20ºC. Once dry remove the bodybuilder's tape.
8. Simulate the texture of the tray with a sandpaper. Remove dirt and clean the area.
9. Paint the tray with a Repair Kit. From this point follow the instructions in the Repair Kit manual.

Construplas S.L. guarantees the shower tray against any manufacturing defect and undertakes to substitute the detective shower tray by new one or the repair it.

Before finishing ceramic tile installation, and BEFORE installing any other material on or around the Shower tray, the installer must verify the correct installation, specifically levelling and drainage. If these verifications are not performed correctly, Construplas S.L. will NOT accept any expenses on the enclosures or tiles installed on ar around the shower tray.

Akron products characteristics

PACKING AND SHIPPING CONDITIONS
All Akron shower trays are individually packed in a wood box according to the shower tray measures. Box contains shower tray completely protected and also: 1.- Installation instructions in different languages. 2.- AISI 304 stainless steel grid. High precision laser cut and polished, exclusive design from ACQUABELLA. Ready to install over trap. 3.- All our shower trays are supplied with a high quality syphonic shower trap (waste) according to the European standarDs. 4.- This drain is supplied in its own identified and packed box.
Claims for damage are not accepted once the POD is signed.

USE AND MAINTENANCE CONDITIONS
A correct care of your AKRON shower tray from ACQUABELLA will let you enjoy it for many years. On a daily routine basis, a simple water wash out and a good ventilation of the bathroom is enough.
When a more thorough cleaning is needed, cleaning must be performed only with water, regular house cleaning soap and a NON abrasive sponge. DO NOT USE any kind scourer or scrubber.

AVOID USING CLEANING PRODUCTS CONTAINING SOLVENTS OR ACIDS. DO NOT USE ANY KIND OR ABRASIVE PRODUCT OR CLOTH.
It is most important to protect the shower tray against possible hits and scratches during the installation process. A cardboard sheet is also provided in the box for this purposes. Using this protective cardboard will also help to avoid mortar, cement, adhesive or even painting remains to stain shower tray. We strongly recommend to protect shower tray during the installation process.
Please be especially careful with the special cement grouts used for ceramic tiles or stone. these products usually contain lime, sands and resins and if they end drying on the shower tray surface, this results in a stain difficult to clean. To avoid letting these products fry on the shower tray surface, wash out it with regularly and with plenty of water and leave the shower tray without any residue. SO, PROTECT WITH CARTON BOARD AND RAISE WITH WATER ANY RESIDUE BEFORE IT DRIES.

In case mortar or cement grout have finally stained the shower tray, we recommend this cleaning procedure: 1.- Remove stainless steel grid from shower show tray. 2.- Dilute a commercial descaler product (Viakal, Bosque Verde, etc.) in a 1:3 proportion (1 part of descaler i 3 parts of water). 3.- Apply this solution with a non abrasive cloth to all the shower tray surface. 4.- Leave ONLY 15 minutes. 5.- After this time, RINSE all shower tray with plenty water, DO NOT leave any part of the shower tray without rinsing. 6.- If needed repeat again the cleaning process from the beginning but remember not to leave the solution more from 15 minutes and also to rinse it completely with plenty of water. 7.- When finished, install stainless grid.

SPECIAL SHOWER TRAY
ACQUABELLA Akron shower Trays can be supplied “cut to the exact needed” size (*). Maximum length 190 cm, maximum width is a 90 cm. (except Stone’s and Slate Texture with Maximum length 200 cm, maximum width 100 cm.)
When cutting to exact size, we perform straight cuts. It is not possible to cut arc, bends or curved shapes. “Cutting to size” a shower tray does not increase its price, we will charge the price of standard size ACQUABELLA Akron shower tray we use to obtain the desired exact size, this is, logically, a standard size tray that allows to reach the size and shape required, and so, bigger than the final “cut to size” shower tray.

When ordering a “cut to size” ACQUABELLA Akron shower tray it is important: 1.- Indicate the final length of the shower tray in cm (if you wish to cut in length). In this cases, you must indicate also if the shower trap is on the left or on the right side, as this is needed to perform a proper cutting. We strongly recommend to make cuts on the shower tray sides attached to the bathroom walls. 2.- Indicate the final width of the shower tray in cm. (If you wish to cut in width). The above recommendation also applies. 4.- Draw a sketch of the exact required sizes and shape of the shower tray.

On written request, the cut side can also be ordered painted on the same colour of the shower tray, but please note, the cut side always loses the texture.

INSTALLING REPLACING PANELS AND ELEVATION SUPPLEMENTS
ACQUABELLA Akron shower tray completes its line with replacing panels (except PLAIN models) to attach to the bathroom wall and also elevation supplements. These products are available on request.

Seaing and grouting. Akron products can be cut using circular saws or grinding machines with diamond discs, as those usually used building. Fixing of the different elements to be realised following the fitting up instructions.

REPAIRING AN ACQUABELLA AKRON SHOWER TRAY
In most cases it is possible to repair the surface of a shower tray deteriorated by on improper use. A repair kit is available. This kit must be ordered specifying the colour of the shower tray to repair.

To apply the repair paint, first apply cleaning alcohol to the area to remove dirt and grease. Apply paint with a small paint roller. Leave 24 hours for proper drying, do not touch the area while drying, do not use the shower tray in this time.

FREQUENT ASKED QUESTIONS (FAQ’S)

- What tool to use for cutting Akron shower tray or panels?
Circular saw with diamond disc, similar to those use for cutting stone, ceramic tiles, etc.

- What cleaning products can be used for AKRON shower trays and worktops?
To clean any traces of glue and cement mortar joints use a descaler called Fugasoap (KERAKOLL), DETERDEK from FILA brand, because it is specific for the removal of debris from construction works, also used for the removal of other components such as salt, rust and lime, please read the instructions. DO NOT RUB, let the product act; NEVER USE PADS (SCOTCH BRITE, or NATURAL FIBER) nor SOLVENTS, ACID, ALKALI OR ABRASIVE. After cleaning, rinse thoroughly and ensure sufficient ventilation of the bathroom. It is not dangerous for the user and not dangerous for the environment

- What are the shower trap (waste) valve characteristics?
The included shower trap (waste) is a top brand one. It is a syphonic trap, with its odour sealant effect the European quality norms. It is equipped with an easy cleaning system, just remove the Acquabella stainless steel grid and you will see a handle, pull the handle and remove the piece, clean it and replace it.
This piece is key in the syphonic effect, so, if there is a second syphonic shower tray installed in the bathroom, you must remove the piece from the shower tray, if not, water will not drain.

- What products can be used to fix and install shower trays or panels?
The bonding of the various elements must be done using SIKAFLEX (SIKA), SUPERFLEX (KERAKOLL) and sealing with grouting ceramic material or silicone nonacidic.

- What is the thickness of replacing panels?
The panels are 6 mm thick. 3D: Mín 6mm, Máx:10mm.

- Where to order spare parts or repairing kits?
You can order spare parts like shower traps, stainless steel grid, repairing kits, instructions and installation leaflets, etc. Please address to ACQUABELLA commercial department, they will be pleased to give you a quotation and fulfil your requests.

- Is any promotion material available for ACQUABELLA Akron shower trays?
Yes, to properly promote and exhibit ACQUABELLA Akron shower trays, there is a special exhibitor unit, ready to show two shower trays. Shower trays can be chosen of any texture and colour.
