EasyFit Isolator

Isolate live pipes

No shutdown required

Use the Aladdin EasyFit Isolator:

- As an emergency shut-off valve for leaking or burst pipe work.
- As an emergency isolation valve, where the stopcock is seized or inaccessible.
- When you need to maintain a component in a heating or cold-water system.
- Where you need to save time, no cooling, drain down or refilling required.
- As an alternative to pipe freezing.
- Save time without disruption to services, only isolate where works are required.
- When isolation is required and none exists, suitable for hot or cold water supply.

Suitable for:

Copper, PEX, Polybutylene and multilayer pipes:

EZF01/02 - metric 15mm **EZF16/17** - imperial 1/2"

EZF04/06 - 22mm or 3/4" **EZF07/09** - 28mm or 1"

Carbon Steel pipes:

EZF18/19 - 15mm

WRAS approved, 16-Bar rated, 10-Year Warranty
