

ULTRAHEAT

Electric Towel Rails

2022 GBP

Classic design, convenient heating

Welcome to our exclusive range of electric towel rails, designed to provide heat at the flick of a switch.

Our attractive collection can be fitted in areas without access to an existing water supply, thanks to innovative technology and clever, compact design.

Innovative technology, inspired design

Each electric towel rail is pre-filled with a heat-transfer liquid and fitted with a compatible heating element. All you need to do is install it on a wall and plug it into a standard electrical outlet. Ideal for conservatories, flats and listed buildings, our electric towel range will look right at home in any room.

Safety comes in threes

A 3-bar safety valve is fitted to every electric towel rail to eliminate the risk of excess high pressure when heated. Do not remove this valve until you have fitted the towel rail to avoid leakage. Always install the valve before using your towel rail for the first time.

Read on to discover our exclusive collection.

Ultraheat is the heating division of The Pitacs Group

Technical specifications are subject to change without prior notice. The colours shown in the imagery, while a good representation, may not be an exact match of the finished product.

Stile

Stainless steel towel rail

The attractive, chunky rectangular bars make Stile a great all-rounder. Perfect for 'His and Hers' bathrooms, the sleek, wide rung spacing allows plenty of space for towels. A modern twist on the classic ladder design, this towel rail can be mounted from the left or right hand side to suit you.
