THE MANTALEDA COLLECTION.

Where accessibility and ease-of-use are a must, our Mantaleda Collection delivers everything you need. Explore our range of deep soak and power-lift baths to take the strain out of independent bathing, with designs to suit the whole family.

Walk-In Baths 10

These baths offer an ideal solution for easy access bathing, without the need to climb in or out. An easy replacement for most standard baths, in any bathroom, our Walk-In baths offer an instant solution for those who are concerned about slips and trips. Each bath also comes with one front and one end panel for easy installation too.

Walk-In Shower Baths 14

Our Walk-In Shower Baths are a great way to ensure that bathing and showering are as simple as possible for those with restricted movement. Each bath also comes with one front and one end panel for easy installation too.

Deep Soak Baths 17

Ideal for those with additional physical requirements, our Deep Soak baths offer an extremely safe and reliable way for those with mobility issues to immerse themselves in the luxury of a bath.

With attractive styling, and a built-in seat our Deep Soak baths all provide an extremely comfortable bathing experience, giving everybody the chance to relax. Each bath also comes with one front and one end panel for easy installation too.

Power Bath 23

The Aventis bath is available with or without the Power Lift. Choosing to add the Power Lift to the bath ensures the safe and easy transfer of bathers in and out of the bath, giving those with more significant mobility issues the opportunity to enjoy a soak without the worry for those around them.

All Mantaleda baths are available with Hydrotherapy Spas and Chromotherapy lights.

Please ask your sales representative for further details.

MANTALEDA

ACCESSIBLE BATHING FOR ALL

As a leading manufacturer of quality baths for over 25 years, Mantaleda innovates to make high-quality products that are accessible for all. Mantaleda baths are for everyone, whether you have restricted movement or simply want extra convenience. They're made for the grandparents, the grandchildren and everyone in-between to make bathing more enjoyable and comfortable. A perfect blend of form and function that keeps in step with every stage of life.

Why stick with tradition? Mantaleda baths are people-oriented to maximise convenience and independence. Discover a range of beautiful designs that will transform how you use your bathroom.

Based in the heart of North Yorkshire, Mantaleda offers a comprehensive range of easy access products including deep soak baths, walk-in shower baths and lift baths, all from a single source that places quality first.

ALWAYS ETHICAL.

Mantaleda endeavour to produce product ranges in the most ethical manner that they can. Where possible, they source raw materials from within the UK and Europe, utilising timber from FSC and PEFC registered suppliers. Mantaleda is also a 'zero landfill' company, with all waste and by-products being screened for recycling, and the remainder used for power generation.

AVRAIL & ABALONE.

Available in both 1500 and 1700, the Avrail and Abalone 1700 bath is the same size as most standard baths, and therefore is the ideal solution to replace an existing bath. With easy access and simple latch lock for an easy opening inward door, the Avrail is the perfect addition to any family bathroom.

CHOOSING THE RIGHT PRODUCTS.

We know that there are many factors to consider when purchasing a new bathroom, so we've created an easy-to use reference guide to help you choose the right products from Leda Bathrooms.

✔ YOUR PRIORITIES

Think about your current and future physical needs. Do you think further down the line you might prefer to have a deep soak in warm water or to lie back? In a shower, would a seat be useful? Do you need help getting in and out of your bath or shower?

✔ BATHROOM USE

Will the bath or shower be used by a wide range of people? If so, what are their needs? Is it just for a one-person household?

✔ BATHROOM SIZE

Consider layout, dimensions and measurements. Do you want a bath or a shower? Where will the bath or shower be placed in the room? Will it be in a corner or an alcove? What other items would you like in the bathroom? (e.g., a standalone shower, toilet, single or double basin, space for a radiator, grab rails etc.)

✔ BATH DIMENSIONS

How will your new bath fit into your layout? Would you prefer a larger bathtub if room allows, or do you feel a more compact design would open up the space? Could you accommodate a freestanding model, or does it need to fit in closely with other fixtures?

✔ TRAY DIMENSIONS

Think about where your shower tray will go – will it be fitted in a corner or alcove? Will it need to be cut to size? And what side will the drainage need to be located?

✔ SHOWER SCREEN

The opening to your shower needs to be carefully considered so that it doesn't block other fixtures in the room, such as the sink or toilet. Are there any other doors in the room you need to take into consideration? Would a sliding option offer better results?

✔ MATERIALS

We supply bathing solutions with both composite and glass doors. Glass looks superb but if you prefer to have a solid door, we have a fantastic selection of both.

✔ ACCESSORIES

What else would you need to help you feel more stable in the bathroom? Do you think anti-scald mixer taps would be worthwhile? How many grab rails are needed and where? Would a bath or shower seat be useful?

✔ FINISHING TOUCHES

What about your walls? Have you thought about wall boards instead of tiles or paint? They are easier and quicker to fit. How about brassware? The right tap can lift your bathroom to the next level. What about furniture – would extra storage under your basin help?
