# 5 Key Benefits of Softened Water

## Cheaper bills

Softened water reduces your bills by increasing your boiler efficiency. You will also find you purchase fewer cleaning products.

## Shinier home

Softened water won't leave limescale residue on your surfaces, leaving your home shinier for longer.

## Less time cleaning

Softened water doesn't leave limescale residue. You will spend less time cleaning around your home.

## Better tasting tea

Softened water removes the scum which is formed on top of your tea, making it taste better.

## Softer skin and hair

Softened water helps remove soap residue, leaving you with beautifully soft skin and hair.

The Dualflo Water Softener is designed and manufactured by the UK's no.1 domestic water softener company, Harvey Water Softeners.

- Non-electric
- Eliminates limescale
- Runs on block salt
- Helps appliances last longer
