Tile Backer Board

Tile Backer/Construction Board

- Superior multi-purpose thermal construction board.
- Extruded polystyrene core with reinforced cement polymer coating.
- Water resistant - ideal for use in areas subject to prolonged/permanent water immersion.
- Thermal properties reduce heat loss when used underneath under-floor heating systems.
- Excellent compressive strength, impact strength, sound reduction and fire resistance.
- Designed for the application of all tile types, cement based screeds and synthetic renders.
- Easy to use and fix using cement based flexible tile adhesive or screws and washers.

Properties	Value
Compressive Strength *(10% deformation)* BS EN 826	300 kPa
Thermal Conductivity to BS EN 13164 *(5 years)*	0.033 W/mK
Water Absorption by volume tested to BS EN 12087	0.6%
Density *(foam core only)*	36kg/m3
Temperature Range	-50, +75 Degrees
Fire Performance BS 476 part 6, 7 surface spread of flames/EN 13501-1	Class O/Euroclass E
Sound Reduction to BS EN 10140-3 test results based on 6mm board	19dB

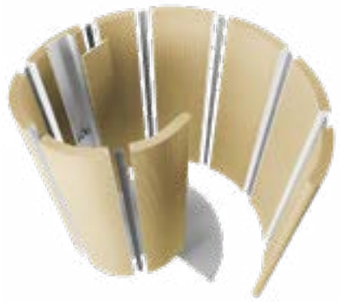
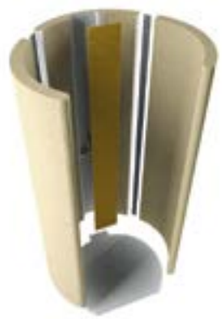
Spiral & Circular Enclosures

Spiral & Circular Enclosures

- CNC machined panels manufactured from high density polystyrene with a polymer modified reinforced cement coating.
- Precision curves, unlike traditional block or angular timber construction.
- Easy to install modular units which are rigid and robust
- Concealed voids for pipes and mixer valves.

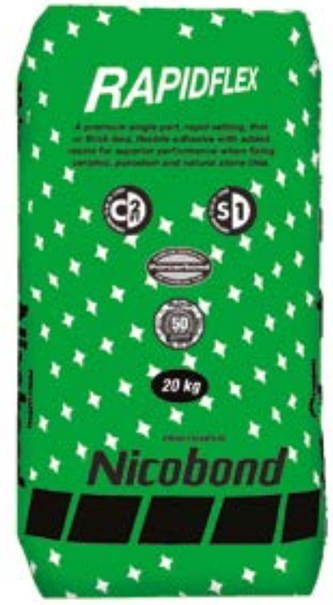




Tile Adhesive

Rapidflex S1 Tile Adhesive

- Single part, rapid setting and waterproof.
- Fixes porcelain, ceramic, mosaic and natural stone tiles.
- Excellent initial grab - non slip.
- Internal or external use.
- Highly flexible.
- Bonds to most substrates including sand/cement, plywood, flooring grade asphalt, hard vinyl tiles and tile backer boards.
- Ideal for bathrooms and wet areas including swimming pools.

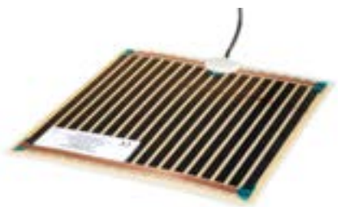


- Colour: White
- Max Bed Thickness: 12mm
- Adjust Time: 15-20mins
- Grouting: 1-4hrs
- Pot Life: 30-45mins
- Open Time: 10-15mins
- Type: Powder
- Size: 20kgs

- Coverage per 20kg bag; 3mm = 5m²
  4mm = 3.44m²
  5mm = 2.5m²

Bag Size	Code
20kg	*RFS120K*

Mirror Demisters



- Simple low cost solution to clear mirrors of steam.
- Self adhesive and ultra thin.
- 230v, no transformer required.
- No thermostat required, can be wired either through a timer or through the lighting circuit to heat only when bathroom is in use. Must not be run continuously.

Size	Code
252 x 274mm	*DEM25*
574 x 274mm	*DEM57*

amerec

5YEAR WARRANTY

For Domestic Steam Rooms

About The Amerec AK Series Steam System

Amerec's new AK generators were purpose-designed for home use, transforming your shower or bathing room into a daily invitation to comfort.

The AK generator uses full power to quickly heat up the steam room to it's pre-set temperature, then cuts power by 1/3 or 2/3 of its heating elements. The result is a more consistent flow of soft steam and more stable temperature.

Available in 4 popular sizes - 4.5kW, 7.5kW, 11kW and 14kW.

Built without compromise, should attention ever be required engineers and genuine parts are always available to keep your steam room in service.

Key Features of the AK Series Steam System

- 5 year warranty.
- Three control options, Smart (K2), Simple (K3) and Basic (K4).
- Sequential temperature control delivers a more consistent flow of soft steam.
- Stainless steel tank and water level probes provide years of trouble-free operation.
- Removable heating elements provide easy and economical service.
- Can be connected together to heat rooms larger than 16m³.
- Generators up to 11kW can be connected in single or three phase. 14kW 3 phase only.
- Dedicated wiring included.
- Controls can be placed inside or outside your steam room.
- Fully tested and approved.

Comfort Flo Steam Outlet

- Designed to provide an even spread of steam throughout the room.
- Sited at low level in your steam room.
- Recess on top takes oils for aromatherapy.
- Polished Chrome finish as standard.
- Available in 6 different plated finishes.

Special Finishes

- Upgrade the Comfort Flo outlet to one of five plated finishes.
- Also upgrades the K2 Control rear trim.
- Chrome is supplied as standard.

Steam room Equipment

K2 Smart Touch Screen Control

Operate your steam bath from anywhere via the dedicated mobile app! K2 has a modern design and is simple to use with its clear display indicating temperature and run time.

- Touch screen operation for easy control.
- Surface mounted - inside or outside the steam room.
- Chrome rear trim supplied as standard with a choice of five alternate upgrade finishes.
- Intuitive display (temp/time/lighting/system status).
- 24hr time delay; 60 minute timer.
- Light control (on/off, dimmer and colour selection if purchasing AK lighting kit).
- WiFi module; mobile app functionality from anywhere there is mobile phone service.
- SaunaLogic App for Android or iPhone; and works with Google Home, Alexa and Siri.
- Includes OTA (Over the air) technology for automatic software updates to mobile device.

The SaunaLogic app allows you to control all function and programming of your steam room (and/or sauna) from wherever you are, requiring only a WiFi connection or phone service (3G/4G/5G). Within the app you can adjust temperature, choose light colour, set a delay time up to 24-hours, use the 60-minute timer and at a glance see the current status of your steam bath. Available for Android smart phones, iPads/tablets and works with Google Home, Alexa and Siri.

K3 Simple Touch Screen Control

For those who prefer simplicity.

- Touch screen which controls time and temperature.
- LED read out.
- Surface mounted - inside or outside the steam room.

K4 Basic On/Off Non-Thermostatic Control

- Basic on/off 30 minute control.
- Illuminates during operation.
- Compatible with AK4 generator only.
- Surface mounted - inside or outside the steam room.

Generator Ordering Codes

Room Size	Model	Power	Generator Size *(WxDxH)*	With K4 Control	With K3 Control	With K2 Control
Up to 5m³	AK4	4.5kW	419 x 159 x 380mm			
Up to 9m³	AK7	7.5kW	419 x 159 x 380mm			
Up to 14m³	AK11	11kW	419 x 159 x 380mm			
Up to 20m³	AK14	14kW	419 x 159 x 380mm			

For rooms made of natural stone, multiply the cubic volume of the room by 1.75 as natural stone requires more power to heat.

For rooms that exceed 15.5m³, multiple generators may be linked together to achieve the required capacity. Only one controller is required.

www.betascreens.com

About

BETA Screens specialise in supplying bespoke shower screen solutions to suit almost any shower space at competitive prices.

BETA Screens are distinguished by a full glass high-end aesthetic, offering minimalist luxury at an affordable price. The effect is fully frameless, with pure sight lines that harmonise with both traditional and contemporary features and fittings.

Our knowledgeable staff can quickly and easily guide you through different configurations, offer advice and provide instant quotations over the phone if required.

Glass

BS EN 12150 toughened safety glass manufactured in the UK in either 6mm, 8mm or 10mm thickness.
We offer seven different glass finished including Clear, Ultra-Clear, Frosted, Smoked and Bronze.
We can also etch script and basic designs/patterns.

Hardware

90% of our high quality screen hardware is manufactured in the UK using Chrome Plated Brass and is available to purchase separately.
We can also offer many other finishes.

Other Products

Additionally; we can produce many other glass products such as; mirrors, splash backs, balustrades and table tops.

Bespoke Screens, Doors & Enclosures

Simply provide us with your measurements or a rough dimensional drawing for a quote

We specialise in supplying bespoke shower screens, doors and enclosures to suit any shower space.

- Fast quotes.
- Knowledgeable staff.
- Almost any configuration can be achieved.
- Angled top cuts, radius corners, tight spaces, floor to ceiling or unusual layouts are no problem.
- Precision CNC cut toughened safety glass manufactured in the UK.
- High quality hardware.
- Choice of hardware finishes
- Choice of glass thickness and finish/tint.

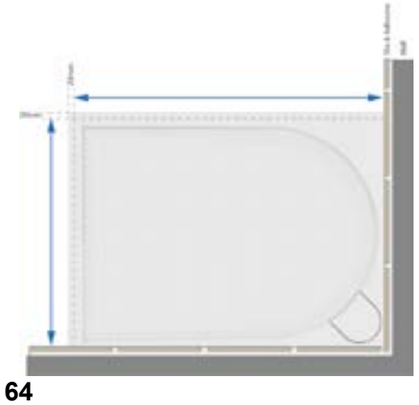
How to order a shower screen or enclosure

All we need is accurately measured tight dimensions where the glass is to be fitted, this should be measured from the finished surface i.e. tiles/wall panel ect. We will make all the necessary adjustments to ensure your shower screen or enclosure fits first time.
For example

When measuring an alcove for a door or in-line enclosure.
- Measure the gap in three places
- Measure finished height of the glass

When measuring for a floor to ceiling screen.
- Measure floor to ceiling in three places
- Measure width of the glass

When measuring an angled cut for a sloping ceiling.
- Measure as if panel was to be fitted floor to ceiling
- Measure finished height of the glass.
- To complete the enclosure provide the measurement for the door gap.



When measuring for an enclosure on a shower tray with a perimeter border.
- Measure once fitted and tiled
- Measure from the wall to the outside edge of the tray
- Deduct 20mm

Glass Finishes & Thickness

Clear Glass Supplied as Standard

Hardware Finishes
